Dear Parents, Carers and friends,
We've been so fortunate in being able to enjoy a fortnight of warm and dry weather. Students at break times have been able to be out in the playground, with a lot of cricket and basketball being played.

Learn to Swim Program

The first session of this program will be commencing on Monday 29th, Tuesday, 30th, Wednesday, 31st March and Thursday 1st April. The early childhood and primary students from both campuses will be invited to attend these four days. The one hour program on each day will commence at 11.00am - 12 noon. The program will take place at the East Ulverstone indoor pool.

A permission slip will be accompanying this newsletter and it must be signed and returned to school by Friday 26th March. Students cannot take part if their permission slip is not signed.
**Cinema Charity Day**

Mr Chris Warriner has come forward to organise a special viewing of the film 'How to Train a Dragon' on Friday 9th April at Metro in Burnie. This date is during the Easter break. All SOSE students, their brothers and sisters and friends are invited to attend.

**Autumn Experience Day**

After a highly successful visit to Natone Primary School last year we are once again taking our students on a follow up visit next Friday 26th March. We hope to have fun with finding Autumn leaves and playing some games with the Natone Primary students. We also plan to visit the wetlands to see how the plants that were donated last year from the Burnie Campus have grown.

**Plastic Bags**

Once again we have need of plastic bags at the school. If you have any spare bags cluttering up your house, please send them along, we can always find a use for them. Thank you.

Grace
Brady's Make-a-Wish Weekend

Brady went for a ride in a helicopter with his family.

Brady had to wear headphones in the helicopter, so he could hear what the pilot said.

Brady watched the V8 Supercars racing around the track.

Here is Brady on the back of a Harley Davidson motorcycle.

But best of all here is Brady with Shannon Noll!
